

Power Advanced Patient Care With Smarter Technology

Where Patient-Centric Care Meets Modern Healthcare IT

Levata is here to help your healthcare organization navigate intense operational pressure driven by rising costs, workforce shortages, expanding care models, and growing demands for data-driven, patient-first care.

Smarter Data, Traceable Assets, Better Care Experiences

Data capture, asset tracking, and clinical mobility are foundational to modern Healthcare environments. Levata designs and deploys RFID and real-time visibility solutions that help you instantly locate medical equipment, beds, scanning and computing devices, and high-value assets. To remain efficient, compliant, and secure, healthcare leaders are prioritizing connected technology ecosystems that reduce operational strain, support clinical teams, and improve care delivery without adding complexity.

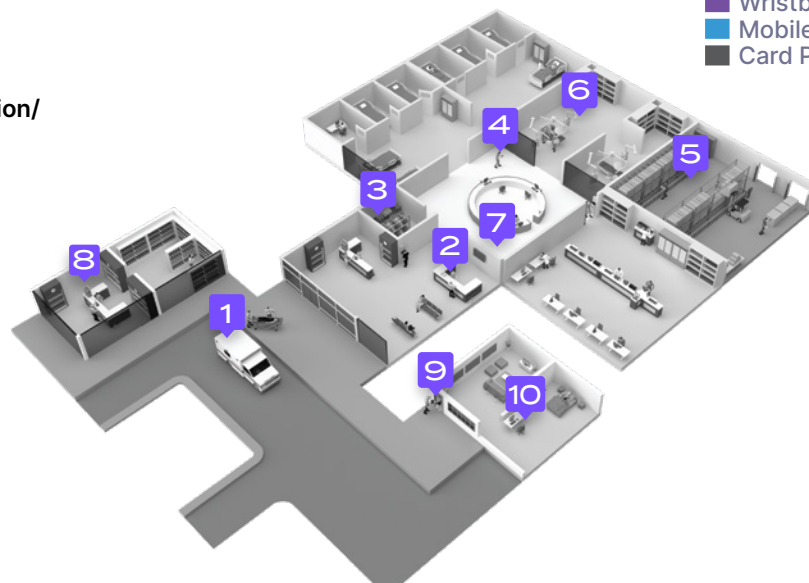

- Track high-value assets, medications and patients
- Streamline admissions workflows
- Secure staff communications
- Wristband and label printing on-the-go
- Control access to secure areas
- Gain universal mobile device management and support

Visibility Across Every Device, Workflow, and Care Environment

- 1 Asset Tracking**

- 10 Assisted Living/Home care**

Technology

- Mobile Computers/Tablets
- Mobile Printers
- Desktop Printers
- Wristband Printers
- Industrial Printers
- Barcode Scanners
- RFID
- Custom Labels
- Label Design Software
- Kiosks
- Touchscreens
- Digital Signage Displays
- Wristbands
- Mobile Carts
- Card Printers

Your Transformation Partner for Connected Care Operations

Enhanced Patient Safety & Experience

Support accurate patient identification and timely interventions for improved safety, reduced errors, and elevated patient experience.

Strong Security & Compliance

Enforce access control, track asset custody, support regulatory compliance, and maintain audit-ready visibility across devices, patients, and care processes.

Improved Clinical Workflows

Faster access to patient information and critical systems through clinical mobility devices. Automate processes so clinicians can dedicate time to care delivery.

Data-Driven Decision Making

Capture actionable data that informs workflow optimization, staffing, capacity planning, and continuous improvement initiatives.

Real-Time Asset & Equipment Visibility

RFID transforms physical equipment into actionable intelligence – improving throughput, supporting workflows, strengthening compliance and traceability, and enabling data-driven capital planning. Ultimately, real-time visibility helps healthcare organizations recover clinical time, protect budgets, and focus more energy on delivering exceptional patient care.

Services to Design, Deploy, and Support Your Solutions

As a global transformation partner, Levata's experts—from Solution Architects and Field Technicians, to Technology Configuration and Lifecycle Support Teams—are here to elevate your total healthcare IT ecosystem from concept to completion, and beyond. Leverage Levata's end-to-end capabilities while your teams focus on delivering quality care and patient safety.

Solution Design/Implementation

Implement comprehensive project management, mobile technology support and onsite setup, installation and replacement of technology.

End-User Services to Augment Staff

Ensure end-users remain up-to-speed with training solutions and 24x7 Help Desk support for hardware and software.

Device Support and Management

Leverage secure and detailed staging, kitting and carrier activation, device management services, plus Overnight Spare Pool, Repair and Manufacturer RMA services to keep critical business running nonstop.

Asset Management

Leverage strong business intelligence to manage assets, tickets and get an overview of your assets.

Device-as-a-Service

Enable a predictable OPEX model by bundling innovative devices with a variety of services and software.

Wireless Networking

Securely run all devices on one, unified wireless or carrier network—enjoy Wi-Fi site survey, installation, carrier activation and maintenance services.
